OUTLINES.

The refusal of the Russian plenipotentiaries to entertain the payment of a war indemnity to Japan and to cede territory came very near abruptly terminating the peace convention at Portsmouth; through the diplomacy of the Japanese, a better feeling prevails, but the outlook is still gloomy; the convention will hold a session to-day at 3 P. M.——Yesterday was a record breaker in the yellow fever situation at New Orleans; there were 105 new cases for the day and 9 deaths, making the totals to date 913 cases and 188 deaths; among the dead is a newspaper reporter who died at his post in the infected quarter——At Richmond last night Mrs. H. C. Stewart fired three shots at a burglar and hit him, being herself missed by a shot fired by him——Bishop A. Coke Smith is quite ill at Asheville—In the Taggart divorce trial at Wooster, O., the defense claims that the captain learned his wife to drink, and a statement is made that the couple may become reconciled——The festivities in honor of the visit of the French fleet to England concluded yesterday afternoon with a luncheon in the House of Commons, the feature being toasts that indicate strong relations between Great Britain and France——At the opening race of the Cleveland Automobile Club's Summer meet at Cleveland, O., yesterday, Earl Kiser's machine went through a fence, causing injuries that are doubtless fatal——New York markets: Money on call nominal, no loans, time loans firm; spot cotton quiet, 10.65; flour quiet and barely steady; wheat easier, No. 2 red, 86 1-4 elevator; corn steady, No. 2, 62 elevator; oats steady, mixed, 30 to 31; turpentine quiet, 63 1-2 to 64 asked; rosin quiet, strained common to good 2.55 to 3.65.

Miss Stygomia Fasciata is not necessarily popular because everybody wants to get in a mash on her.

If a married man knows that his wife has counted the money in his pocket he is afraid to spend it unless he is able to convince her where it went.

A writer, who is not posted, says: "Most women have but one idea and that is dress." Huh! Women have a whole concatenation of ideas on dress alone.

A bachelor never knows how much fun it is to get some of his friends to telephone him at his home that he is wanted down town on important business as soon as he can get his supper.

The plenipotentiaries to the peace convention sitting at Portsmouth get big salaries and $200 a day for expenses. We know men who wouldn't have any peace till they could run down to New York to get rid of the expense money.

"Should a man desire to live a hundred years?" asks a medical journal. Well, we should say it is prefectly natural for a man to desire to live that long so he can count the trusts which the Republican party protected with a tariff and failed to bust with hot air.

Our estemed contemporary, the Charlotte Chronicle, truly says: "As between Wrightsville and Morehead City as the site for the permanent encampment of State Troops, the committee should not find it necessary to hesitate a moment. Wrightsville is incomparably superior to Morehead for encampment purposes." Of course, we are interested, but we fail to see how anybody with a good eye can see any other way than the Chronicle looks at it.

Homes Assigned Them Upon Their Arrival Tuesday Morning — Programme of Their Entertainment in Wilmington.

The Orphans' Outing Committee of the four enthusiastic Odd Fellow lodges in Wilmington have completed all arrangements for the annual visit of the children of the I. O. O. F. That it will be a pleasure for the children to come and for the hospitable Odd Fellows of the city to have them goes without saying.

Investigated Cutting Affair.

Justice Bornemann yesterday went into an investigation of the slashing affair that occurred between Alfred Hooper and Eddie Flowers, colored swains for the heart and hand of Missie Hayes, a ginger cake hued daughter of Africa, who was also indicted for aiding and abetting in the cutlery duel. Hooper was knifed so severely that he was laid up in the hospital, but it was shown he had used a brick-bat on his adversary and he went to Superior Sourt under bond of $50. Eddie Flowers, who wielded the knife with such telling effect on Hooper's anatomy, was sent over under bond of $200. Missie Hayes could not be connected with the affair as an aider and abettor as charged, and she was dismissed.

BLUE LAW IN EFFECT TO-DAY

No Soda Water Dispensed from Fountains and No Cigars, Cigarettes, Tobacco, etc.

But, my masters, won't there go up a wail from the "dopists" and tobacco fiends, who brace the soda fountains and cigar cases to-day and are denied their favorite decoction or their fragrant Havana! It will be even so, for be it known that with the stroke of 12 by the town clock last night, the Wilmington Sunday blue laws went into effect good and hard. The drug stores are as dry as powder magazines and cigars and tobaccos are simply out of the question. It works a hardship upon a public—oh! yes—but the effect of one day under the blue law will be the repeal of that same law to-morrow afternoon when the Aldermen meet to consider the water proposition. No law can be enforced in the face of an adverse public sentiment and the Aldermen will "do the rest" when they meet to-morrow.

The men who go on duty this morning will receive special instructions from Chief Williams to see that the law is enforced and it will doubtless be so. Chief Williams said yesterday that he had not yet received any complaint as to the hire of horses and the sale of street car tickets, but if the law on the statute book remains, he will have to enforce it literally against all, as well as the druggists. The officers who went on duty last night received no instruction as to the law, but it is presumed the Chief will be down good and early and give the day men the tip to see that nothing but the Sunday schools and Salvation Army services are allowed to open on their beats to-day.

Chief Williams, when sought out last night by the newspaper men, stated positively that the town pump would not be shut down. He also said the Court House clock would be permitted to observe the usual Sunday hours.

THE MAYOR'S LEVEE.

Number of Cases Engaged His Honor's Attention Yesterday.

The docket in the Mayor's court yesterday embraced several cases of more than the usual interest. Van Faulk, a Wadesboro negro found by Police Sergeant J. R. Hardee asleep in the patrol wagon back of the City Hall, was charged with vagrancy. His lounging place caused a titter in the court room. He was ordered to leave the city.

Bertha Nelson, the dissolute white woman who was making herself obnoxious among the Lumberton excursionists leaving the city at the Carolina Central depot Friday night, was given 30 days in the workhouse in each of two cases for vagrancy and disorderly conduct.

Valentine Howe, the colored hack driver of the City Livery Co., who ran into Policeman H. P. Merritt on the sidewalk at Front and Princess streets Friday midnight, was taxed with the cost, whereupon the negro's employer appealed the case to the Superior Court.

Jack Reaves, the carpenter charged with drunkenness at his home where two of his daughters lay sick with a fever, while the entire family was in destitute circumstances, was let off upon his proposition to sober up and sign an agreement to support those dependent upon him.

Peter Van, a colored vagrant, was glad to accept the terms of leaving the city under police escort. The case of a white man charged with jumping on and off a train on the Carolina Central yards, was disposed of in the same manner.

MR. ROYALL'S MOTHER DEAD.

Good Woman Entered Into Rest at Goldsboro Yesterday.

Mr. W. N. Royall, general manager of the Atlantic Coast Line, accompanied by members of his family, left last night for Goldsboro in response to a telegram stating that his mother was dead. Mrs. Royall had spent much of the past week or ten days with his mother who was very feeble and the result of her illness was very problematical until the last. She was a woman greatly beloved in Goldsboro and her death is generally deplored in the community in which she lived. She leaves five sons, Messrs. W. N. Royall, of Wilmington; Messrs. George C., J. L., E. B. and Sam Royall, of Goldsboro, and two daughters, Misses Jennie and Clara Royall, also of Goldsboro. The funeral of Mrs. Royall will be conducted this morning. The bereaved members of the family have the sincere sympathy of a great many friends.

O. R. C. and B. of L. E.

The Star is requested to publish the following: "A union meeting of the conductors and engineers of the first division of the Atlantic Coast Line will be held at Rocky Mount, N. C., about August 25th. Each division of the Order of Railway Conductors and of the Brotherhood of Locomotive Engineers on the first division, which extends from Richmond and Norfolk, Va., to Columbia, S. C., Augusta and Savannah, Ga., will be represented. There are a large number of conductors and engineers running into South Rocky Mount, N. C., from Richmond, Va., Norfolk, Va., Wilmington, N. C., and Florence, S. C., who will also be present at this meeting, which is held to bring about a more friendly feeling between the B. of L. E., and the O. R. C., and to discuss matters pertaining to the interest of both organizations."

Expert Cutter Coming.

An expert cutter representing Strouse & Brothers, of Baltimore, manufacturers of the famous and fashionable High Art Clothing, will be at the store of Messrs. J. M. Solky & Co., in the Masonic Temple Monday, Tuesday and Wednesday for the purpose of taking measures and orders for all who desire something well-fitting and serviceable in men's and boys' clothing for the Fall and Winter. A fine line of goods will be shown with the correct styles for the seasons mentioned.

ON LOCAL DIAMONDS

Junior City Baseball League, Nearing Close, Develops Exciting Pennant Chase

THE GAMES YESTERDAY

Monarchs Took Two From Tailenders and Y. M. C. A. Split Even With the Giants—Topliners Will Meet Next Saturday.

Standing of the Clubs.

	Won.	Lost.	P. C.
Monarchs	16	6	.727
Y. M. C. A.	15	7	.681
M. S. G.	9	13	.408
S. S. R.	5	17	.227

With the full series of twenty-four games closing the season next Saturday and two of the teams practically neck-neck in the race, the chase for the pennant in the Junior City Baseball League is becoming quite exciting as between the Monarchs, the longtime champions, and the Y. M. C. A., which has made phenomenal gains here lately, pushing the erstwhile leaders within one notch of the top of the column after the games played yesterday.

The Monarchs were fortunate to engage the tailenders yesterday at Seaside Park, winning both games by a score of 2 to 1 and 3 to 2, respectively, but next Saturday on the same grounds the Monafchs will not find honors so easy for they are to engage the other topliners and the games will decide the championship for the season unless there be a tie, which appears not at all unlikely.

The games at Seaside yesterday afternoon were very close. Sallings and Moore were on the firing line in both games for the S. S. R.'s while Myers, J., and W. Gore did the twirling and receiving act, respectively, for the champions. The feature was the all-round playing of the Monarchs.

The games at Seventeenth and Market streets were between the Y. M. C. A. and the Market Street Giants, the teams having split even on the double-header, the Y. M. C. A. winning the first in a score of 6 to 3 and the Giants having won the second in a score of 4 to 2. In both games the batteries were Duls and Houston for the Y. M. C. A. and Gerken and Seifert for the Giants. The features of the second game were a home-run by Peck and by Devane for the Giants with a man on base.

The games by all the teams were witnessed by a large number of spectators who pronounced the playing equal to that by amateurs anywhere in the State. The games next Saturday, especially that between the topliners for the championship, will be witnessed by even larger crowds. The teams have played the season for the sport there was in the game and deserve the thanks of many local cranks for several afternoons of real good ball.

FOR CONVALESCENTS.

Cottage on Wrightsville Beach Devoted to Noble Work.

A splendid munificence has manifested itself in the renting of the Parsley cottage, just above the Atlantic Yacht Club, on Wrightsville Beach, and its dedication to the use of convalescents from sickness among the less able people of the city without regard to religious denomination or creed, either from among the hospital or outside patients. Although it was opened rather late in the season, the cottage has already proved itself a blessing to not a few and the opportunity for still greater good will abide some time yet. There are a few vacancies at the cottage now and Rev. R. W. Hogue, rector of St. James', or Miss Susie Price would be glad of the names of anyone in need of a brief sojourn by the ocean, and who is unable to obtain it elsewhere.

MAMMOTH RAILROAD YARDS.

Atlantic Coast Line Makes Purchase of Land to Enlarge.

Rocky Mount, N. C., August 11.—Dr. W. H. Whitehead has just closed for the Atlantic Coast Line a mammoth deal that means much for Rocky Mount and future, having bought one hundred acres of land just south of South Rocky Mount, which is to be used for enlarging the railroad yards so that five thousand cars can be handled thereon. The only thing of its kind in the United States that will be equal the new Atlantic Coast Line yards at Rocky Mount will be that of the great Pennsylvania system at Altoona, Pennsylvania, and those at St. Louis.

Enlarged Cold Storage.

Messrs. W. E. Worth & Co., have recently remodeled their extensive cold storage plant in this city, putting in new ice chambers and the very latest in other machinery necessary to an up-to-date cold storage system. Messrs. Worth & Co. do a large business in their line and have every means for carrying on a large business. They purchase largely of butter and cheese direct from the creameries, and it is kept in a perfect state of preservation the year round. Mr. B. F. White, recently of the Standard Oil Company, has assumed the management of this department of Messrs. Worth & Co.'s extensive interests and will no doubt make an even greater success of the enterprise.

Wilmington's Blue Laws.

Fayetteville Observer: Wilmington is having a fit of Blue Laws. Some one has raked up an old ordinance prohibiting the sale of everything but drugs on Sunday, and the law is being enforced. The Star says the citizens, almost unanimously, are against the law. Fayetteville has almost the same law, only one can buy cigars here on Sunday.

We wish him much success in his new home, and have no doubt but that he will rise; rise rapidly in the service of the A. C. L."

Aldermen Meet To-morrow.

Pursuant to adjournment at the regular meeting last Monday afternoon, the Board of Aldermen will meet again to-morrow afternoon for the purpose of considering Alderman Johnson's waterworks proposition, which will be supported by petitions left at drug stores during the past week for signatures from the public generally. It is stated that a majority of the members of the Board rather favor Mr. Johnson's idea and are awaiting the working out of details and disclosure of the legal phases at the meeting Monday.

FRESHET IN RIVER.

Prediction That Water Will Reach 56 Feet at Fayetteville.

The river was full of driftwood yesterday, indicating a very heavy freshet above. At 8 o'clock yesterday morning the water at Fayetteville was officially reported by the Weather Bureau as having attained a depth of 41 1-2 feet with a rapid rise in progress. At noon Director Thiesson sent from Raleigh a warning that the water would probably rise to a depth of 56 feet. The Fayetteville Observer of yesterday afternoon said it might go even higher than that and gives the following interesting record of previous freshets:

"There have been three great freshets in the Cape Fear, which, for years, were epochs. First, the Sherman freshet, 55 feet, in 1865; next, the Populist freshet, 57 feet, in 1896; and the last, the Prohibition freshet, 58 3-4 feet in 1902."

The lowlands of the river in the present freshet are said to be covered with water and it is believed great damage has been done to corn and other growing crops.

The Fayetteville Observer says the county bridge at Campbellton is threatened and that from all parts of the country come reports of swollen streams and bridges washed away. At least half a dozen bridges near Fayetteville are enumerated as having been swept away.

Manager of C. W. Polvogt Co.

Major W. A. Johnson has been appointed manager of the extensive business of the C. W. Polvogt Co. That he will prove "the right man in the right place," goes without saying with those who know him. He has had years of experience in all departments of the dry goods and notion trade; has an extensive acquaintance throughout the territory commercially tributary to Wilmington; and his appointment is in all respects an admirable one.

TOTAL ECLIPSE OF THE SUN AUGUST 30TH.

Eclipses of the Sun always possess a fascination for people, and therefore the total eclipse scheduled for August 30th will be looked for with great interest. Scientists are watching for it and elaborate preparations are being made at the observatories to make observations of the wonderful phenomenon and secure photographs.

The Cosmopolitan for September, just received by The Star, contains an intensely interesting article on the coming eclipse. It is by Profs. L. Larkin and Waldemar B. Kaempffert and is interestingly illustrated. As a matter of course the eclipse August 30th will not be so locally important as the total eclipse of May 17, 1901. The Star man viewed that total eclipse at Rocky Mount, N. C., which was immediately in the line of totality. Numerous scientists were there to make observations and the results obtained are said to have been greater than at any point in the United States.

To the mass of people the August 30th eclipse will not be considered with anything but passing interest but the scientists are making great preparations for it. This eclipse will be a repetition of one in 1797 and another on July 28, 1851. The latter crossed Sweden and Germany while its 1905 successor will sweep over the earth farther toward the South, beginning in Labrador and ending in Arabia.

The coming eclipse will be total in some portions of the world but will be visible in North Carolina as a partial eclipse. It will cause the interested to jump out of bed early, as the sun will rise in eclipse. That will be something worth getting up for, however, as some of the "oldest citizens" tell the Star they never saw such a sight in their lifetime.

The path of totality will run through Labrador, the North Atlantic Ocean, thence across Spain and Portugal, and thence across the Mediterranean sea through northeastern Africa. We have previously remarked that this eclipse will not be so important as the great total eclipse of the sun visible in North Carolina in 1901. We mean, of course, that it will not be so important as far as North Carolina is concerned. To the scientists, however, it will be. The Lick Observatory and the United States Naval Observatory have already sent well equipped expeditions to Spain, Algeria and Egypt, where observations will be made and photographs secured. It is interesting to note also that for the first time, the United States government has issued to captains of steamers circulars giving positions of the central line of eclipse. This is for the purpose of securing snap-shots at sea. It is hoped that changes can thus be detected in the corona.

If it is a clear morning on the 30th of August be an early riser and see the sun rise in eclipse. Be sure to smoke your glass the previous evening.

WILL WE HAVE TROUBLE WITH VENEZUELA?

Sensational press dispatches were sent from Burlington, Vt., on Friday like this:

"Col. Wm. Wallace received a letter yesterday from Lieutenant General Wade, directing him to prepare and hold in readiness two squadrons of the 15th cavalry for orders to leave garrison at a moment's notice. Besides the two squadrons of the 15th cavalry, two batteries of field artillery, which are not designated, but are believed to be the third and fourth batteries at Fort Meyer, Va.; the fifth regiment of infantry, at Plattsburg Barracks, and a company of engineers from Washington Barracks, will be taken from this division for duty. No reason for this action is given, but the general opinion of the officers and men is that they will be sent to Venezuela. They believe the War Department have a secret proposition up its sleeve. More definite orders are awaited by Colonel Wallace, who expects them tomorrow. The orders to be in readiness have been issued to the first and second squadrons 15th cavalry and they will be ready to leave the post on the receipt of telegraphic orders."

The above jars us. It is altogether two sensational in midsummer, when we are trying to patch up peace between Russia and Japan. President Roosevelt has spent the Summer at Oyster Bay, trying to rest, but between being called away to make speeches and being perturbed by scandals in the Departments at Washington, it would appear that he is not resting well. Now comes a war scare, but we rather think there is nothing in it.

It is true that a few days ago there came an official statement from Caracas that the New York & Bermudez Asphalt Company has filed a protest against the decision of the Venezuelan Court of Cassation, which declared its concession null and void, may well be received at Washington with calmness. The government has sent Judge Calhoun down there as a special commissioner to look into this asphalt dispute between a New York corporation and the Venezuelan government and find out, if possible, the merits of the controversy and the ground that may exist, if any, for interposing in behalf of "the rights of American citzens." Until he reports upon the facts there is no occasion for anybody to get excited, and there probably will be none then.

THE DELINEATOR.

The always delightful Delineator is on our table—that is the September number. It contains a rich and varied table of contents, and is illustrated to the queen's tastes. It gives us the first glimpse of early Autumn fashions, dress trimmings and accessories, and in it the reader gets en rapport with the pretty Fall styles. The Delineator is a symposium of fashion, art, home science and literature, but it is so widely popular it is only necessary to mention that the September number can be had. Subscription price $1.00 per year; price per copy, 15 cents. Address Butterick Publishing Co., New York.

WHERE THE STAND PAT SHOE PINCHES.

When General Hancock was nominated for President by the Democrats he was laughed at for saying protection was a local issue. In those days Maine voted blindly and overwhelmingly for protection. Now that the stand pat variety of protection bursts the local interests of Maine, that States wants reciprocity with Canada. The stand pat shoe pinches Maine.

It is said that the demand in New England for some relief in the way of reciprocity is endangering the prospects of the Republican party.

CURRENT COMMENT.

—Nobody expected the Republican State Chairman to acknowledge that anybody except himself is leader.—Raleigh Post.

—A few more exposures and there will be a disposition to change the name of the Empire State to the Vampire State.—Washington Post.

—They are busy again defeating Senator Simmons. We prefer waiting until the votes are counted before publishing these prophesies as news matter.—Salisbury Post.

—There is strong agitation for municipal ownership of the water-works in Wilmington. Twenty-six towns and cities in North Carolina own the water system. Every other one should do likewise.—Raleigh News and Observer.

—"In the Superior Court at Asheville, N. C., on Tuesday a murderer was tried convicted and sentenced to the penitentiary within twenty-four after the killing occurred." There was no illustration of the law's delay about that.—Richmond New Leader.

—The Wilmington Aldermen have admirable nerve. Right on the heels of the disclosure, with reference to the mismanagement of Charlotte's water-works, the Wilmington folks are considering municipal ownership of their water-works system.—Sallabury Post.

—We play seriously on words when we say that there will be many a Protestant in Richmond against the idea of making Bishop Van de Vyver successor to Archbishop Chappelle, who has just died of yellow fever in New Orleans. Bishop Van de Vyver deserves the promotion, but every one here, irrespective of sect, who knows him loves him and would deplore his leaving the city.—Richmond News Leader.

—The resorts of western North Carolina are attracting greater crowds this year than ever before, and we are not surprised at it. The Land of the Sky in the Asheville section, and "The Beautiful Sapphire County" hard by, are unsurpassed in the matter of natural scenery, and the climate is ideal. In addition to the mountains there are numerous lakes in the Sapphire Country, and there are many good hotels for the accomodation of visitors. But there are other attractions at the North Carolina resorts. The finest men and women from the Old North State and from South Carolina are there in large numbers, and make the social feature all that could be desired.—Richmond Times-Dispatch

—"I understand Skinner has lost all his money." "Yes, by his speculations." "But how did he get his money in the first place?" "By his peculations."—New York Sun.

—Johnny—Papa, couldn't they put all he telegraph wires underground? Papa—Certainly. Johnny—I wish they would. They are such a nuisance when you are flying a kite.—Booklyn Life.

—"Ah! my poor man," said the prison visitor, "and how did you get here?" "I was drove to it, ma'am," replied the convinct. "Yes?" "Yes'm; the van brung me."—Philadelphia me."—Philadelphia Press.

—Miss Ascum—When Mr. Richley saw my photograph yesterday he said it was very pretty, didn't he? Come now, honest? Miss Chellus—No; quite the reverse. He said it was a good likeness.—Philadelphia Press.

—"How did you find things in America?" asked the interviewer of the European, who had come over here to look around. "Well," was the answer, "credit is dilated; stocks diluted, and the President is delighted."—Washington Star.

—"Well, you married a wealthy woman. Is she the treasure you hoped for?" "Can't say she is. She won't give me any of her money." "Then, by George! She is a treasure, She not only has money, but common sense, too."—Baltimore Sun.

—"Why don't you try to win the confidence of the people?" "Not now," answered Senator Sorghum. "The people have been goldbricked so much of late years that every time they see a man trying to make himself agreeable they get suspicious."—Washington Star.

—Professor—What constitues burglary? Law Student—There must be a breaking. Professor—Then if a thief entered the open door of your room while you were asleep and extracted $5 from your pocket you would not call it burglary, eh? Law Student—Yes, sir; that would break me.—Ianta Constitution.

SANTO DOMINGO EXPENSIVE.

Big Cruiser to Be Used by Roosevelt's Financial Agent.

By Wire to The Morning Star

Washington, August 11.—The cruiser Galveston, which arrived in Hampton Roads, Va., last evening is taking on coal under hurry orders, preparatory to making a trip to Santo Domingo. She has been assigned by the Navy Department at the instance of the State Department, to the duty of transporting Professor John H. Hollander and his secretary to Santo Domingo. The professor is to continue the prosecution of his inquiry into Dominican finances, and resources, which it is expected will serve as a basis of the report to be laid before the Senate at its next session for its guidance in action upon the pending treaty, providing for the administration of Dominican finances by United States agents. Professor Hollander was at the Navy Department today when he made final arrangements for his trip. He will go aboard the Galveston in Hampton Roads about Sunday, the vessel sailing probably within 24 hours thereafter. Professor Hollander will visit the various ports of San Domingo and some of the neighboring islands. The trip is expected to consume about one month. Commander Cutter, commanding officer of the Galveston, was at the Department today and received formal orders for the trip.

TAGGART DIVORCE HEARING.

Army Officer Caught His Wife Boozing With the Boys.

By Wire to The Morning Star

Wooster, Ohio, August 11.—In the Taggart divorce case today Judge Eason, citing authority of the court ruled out the testimony of Detectives Mabee and Morris by whom the plaintiff expected to show misbehavior on Mrs. Taggart's part. The grounds was that the young man in question, son of a Wooster clergyman, had not been named in the pleadings.

On resumnig his testimony, the captain referred to the Matanzas champagne supper. The next morning he said he told his wife it would be better to send one of her visiting woman friends home to her husband if that was the kind of parties they expected to have. This woman left next day. Mrs. Taggart had not commented on the episode, though witness had told her it was most disgraceful and expressed a hope that no one would find it out.

Captain Taggart then testified as to various improper acts on the part of his wife, named various co-respondents, and described his unsuccessful attempts to keep her away from them.

HENRY BLOUNT AT SOUTHPORT

Delighted Large Audience There Last Week—Seashore Hotel.

(Special Star Correspondence.)

Southport, N. C., Aug. 12.—An appreciative audience heard Henry Blount, one of the most gifted, and distinguished orators and lecturers in the Southern States, Thursday night at the court house in his "Wit and Humor." His audience was kept continually in a state of merriment and mirth at his fun and original jokes, while not one who heard his first lecture will fail to attend again if Mr. Blount can possibly stay over another night.

It is truly and aptly said of Henry Blount, that if the people knew the class of entertainment he gives, that there would not be a house in North Carolina large enough to hold the audience. The lecture Thursday night was given in aid of the Public School fund here, and Mr. Blount has been persuaded by his enthusiastic audience of the night before, and by the school committee here to stay over and give another lecture Friday night which will be "Rip Van Winkle," and "Solon Shingle" in which all different characters will be taken by Mr. Blount himself.

Mr. Blount will lecture at the Seashore Hotel at Wrightsville Beach the first of next week.

SEVENTY WARSHIPS DO HONORS

British and French Fleets Celebrate King Edward's Coronation.

By Cable to The Morning Star.

Portsmouth, Eng., August 9.—King Edward celebrated the anniversary of his coronation today by reviewing the combined French and British fleets, aggregating some seventy ships. As a spectacle, the event was somewhat marred by gloomy and showery weather, but the enthusiasm of the crowds was undiminished. The entire combined fleets joined in a salvo of 101 guns. His Majesty, wearing the uniform of an admiral, stood alone on the bridge of the royal yacht at salute. All the ships were dressed and manned and their bands played "God Save the King."

The French fleet later entered Portsmouth harbor.

SPIRITS TURPENTINE.

—A charter has been granted to the Tarboro chamber of commerce, with $20,000 capital stock, there being about a hundred incorporators.

—The plans drawn by Hook & Rogers, of Charlotte, for Winston-Salem's $100,000 hotel may be accepted. The directors will meet in a few days to make a selection. It has been decided that the hotel will be five stories and will have no less than 100 rooms.

—There have been rumors at Raleigh that a compromise might be made in the case of Howell vs. Claude Bernard. Attorney Argo, for Mr. Howell, said on Friday: "I know nothing of any compromise whatever being offered. You can say that this case will be fought by us for all it is worth."

—Fayetteville Observer: The Fayetteville Independent Light Infantry has been invited to attend and assist in the military exercises, during the Home Coming week at Red Springs, on August 23d, and it is probable that the invitation will be accepted. The 23d is the company's anniversary day, and the members think it would be a good way to celebrate the occasion

—A Greensboro dispatch on Friday says: The very latest rumor in connection with the calling of a grand jury at a special term of the Federal court to begin in Greensboro, September 4th, is that United State District Attorney Holton will send a bill of indictment against officers and promoters of the Great Western Mining Company, a concern out West for which ex-Evangelist Fife has been working for the past two years, and which has thousands of good Christian stockholders in North Carolina.

—Fayetteville Observer, August 11: Deputy Sheriff Frank Skipper, of Wade, brought four gallons and a half of corn liquor to the city yesterday and turned it over to the authorities. Deputy Sheriff seized the whiskey in the express office at Wade, by virtue of the Cumberland County prohibition law, which says that two gallons is as much as a man can have at a time, and that more than that amount is prima facie evidence that he is a liquor dealer. The whiskey was consigned to William McIntrye, colored, and while here the Deputy Sheriff obtained a warrant for McIntrye's arrest.

—The 5th annual reunion of the Confederate Veterans of 71st, Quewhiffle, and Little River townships, Cumberland county, will be held at Longstreet Church, on the 1st Saturday, 2nd of September, 1905. To all Veterans who wore the grey a cordial welcome will be extended. Rev. David Fairley will open the exercises at 11 A. M. with prayer; Rev. W. M. Fairly will deliver the address of welcome; the response will be by Major Murdock McRae, McLauchlin, of Cheraw, S. C., and the principal address will be by Hamilton McMillan, Esq. A big basket picnic will be enjoyed.

—A dispatch from High Point says: Mr. Schaub, the agent of the Southern Railway at this place, has succeeded in getting a night force for the shifting department. This was caused by the rapid increase in business here the past six months, and enables the shippers to have clean tracks every morning. Since the car famine here the Southern has awakened to a relization of the immense amount of shipping here and inpressed this road vividly that if it expects to take care of the business of High Point energetic work must be done all the time, so as to avoid any congestion that is bound to occur if the work is hindered any length of time.

—Charlotte Observer: Mrs. Cora Lee Bradshaw, widow of Mr. J. J. Bradshaw, who was electrocuted while leaning against a street electric light pole several days ago, has instructed her attorney, Mr. F. R. McNinch, to institute proceedings against the Catawba Power Company for damages on account of the death of her husband. Mrs. Bradshaw, whose home is near Mooresville, qualified as administratrix of the estate of her husband Thursday and yesterday morning retained Mr. McNinch to bring the suit, which will be for not less than $25,000. The circumstances of the death of Mr. Bradshaw will be remembered. He was standing beside the electric light pole at the corner of East Fifth street and the railroad and caught hold of the wire apparatus by which the lamp is manipulated. In some way the wire cable connecting the lamp with the pulley had become crossed with a live wire and the man fell dead the instant after he touched the pulley and completed the electric circuit.

—A dispatch from Asheville says: Republican State Chairman Rollins was seen by a representative of the press this morning and asked if he had seen the interview with Senator Simmons, sent out from Washington, in which the senior North Carolina Senator gave it as his opinion that former Senator Marion Butler was in reality the leader of the Republican party in this State. Chairman Rollins gave an affirmative reply and added that Mr. Butler was in reality and only not the leader of the Republican party in this State, but that that gentleman did not aspire to assume such role. Chairman Rollins also followed this topic a little further, saying that inasmuch as Senator Simmons had seen fit to express an opinion with regard to the leadership of the Republican party, he would take a similar privilege, and give the name of the real leader of the Democratic party, Ex-Governor Aycock is the man, said Mr. Rollins, and if the Democrats were successful at the next election, which looked doubtful at the present writing, that gentleman would certainly displace Mr. Simmons in the Senate.

—Raleigh News and Observer, August 12.—Sheer down fifty to fifty-six feet fell the body of a man from the top of the A. & M. College agricultural building. The fall was a terrific one, and it is wonderful that the man lived. The victim of this terrible accident is J. Howard Camden, a whiteman about 26 years old, He was on the scaffolding about the building, which is being erected, and this gave way, dropping him to the ground below, which he met with fearful force. An examination showed that besides probable internal injuries and injuries to the back, both arms and one leg are fractured. The left elbow is badly broken, the bones being in fragments. the injuries being so severe that he will probably never be able to bend his elbow again. There is a fracture of the right wrist and the bones in the right foot are broken. The physicians are not yet able to say what are the extent of the internal injuries. At Rex Hospital the man was put under the influence of ether and the broken limbs set with care. Late last night he seemingly doing very well and the physicians said that despite the terrible fall, the man had a chance to recover

Mrs. W. H. Cobb, who shot and instantly killed her husband Tuesday night at Royston, Ga., at noon yesterday night at Royston, Ga., was arrested at at $7,000. The bond will be made. No further investigation will be made until the Superior Court meets in September. She claimed that she mistook him for a burglar, but it is believed to be a case of murder.

AN APOSTLE OF SUNSHINE.

Col. Noah Webster Cooper, Noted Lecturer, Speaks of Wilmington.

Col. Noah Webster Cooper, an attorney-at-law of Nashville, Tenn., and a lecturer of note, is in the city for a few days visiting his brother, Mr. W. B. Cooper. Col. Cooper has just arrived from Washington, D. C., where he lectured at a chautauqua and goes from here through South Carolina and Georgia, back toward Tennessee. Col. Cooper had some nice things to say about Wilmington. He has not been here before in four years and notes many improvements in the city. Col. Cooper is now engaged in delivering a series of lectures under the auspices of the Columbian Bureau, of Nashville, Tenn., and is heralded as a "Crusader of Happiness." He is learned, genial, whole-souled and the world will be better for his having lived in it. In speaking of Wilmington he said:

"I am delighted to find that your city is blessed with prosperity. Since I was here, four years ago, this city has improved wonderfully. In driving around I notice new houses going up; every sign of healthy progress; and your car line to the beach and the accommodations there are simply charming. I am used to the hills and mountains of Tennessee, and this country seems flat to me; but I see no reason why you shouldn't live in Paradise here.

"I am just in from lecturing at a Chautauqua near Washington, D. C., and ran by here to see how you were treating my brother, "Billy," who now grown good (?) and great (?) is no other than your own Colonel William B. Cooper. But he will always be "Billy" to me. I am glad to find that you are treating him well. Possibly he deserves it. He goes fast, was always quick on trigger, and occasionally makes what Admiral Sampson would call a faux pas; but still he means exactly right. And a fellow, after all, should be measured by his motives.

"I am glad to see that he is helping you in promoting the public welfare, and preserving the honor and purity of the city. Such men are the best Palladiums of any city. He never was a selfish chap; was always willing to divide as long as the 'tato or the apple lasted. It takes men of public spirit to bring a city towards beauty and perfection. No city can ever be great with all its citizens engrossed in mere selfish pursuits. We must all spend some hours in the flower garden of life, growing and giving bouquets to the passing stranger and the world at large.

"The wretch concentered all in self,
Doubly dying shall go down,
To the vile dust from whence he sprung,
Unwept, unhonored, and unsung."

"Your city is very beautiful, and I hope you are all marching back to Eden, if you have not already regained Paradise. You know this life was never intended to be a mere march of misery from the cradle to the tomb, like the passage of the Baltic fleet from Cronstadt, to the Japan Sea. Adam was driven out from Eden; but was never forbidden to return. And what is not forbidden by the moral or civil law, man is allowed to do.

"I believe that Adam and Eve went back to Eden and lived and died in Paradise. There is no proof or record to the contrary. Eden was never closed to Adam, and has always been open to every other man. Eden was never destroyed. It still exists for every man who seeks Paradise with loving eyes and child-like heart. Knock and the door of Paradise shall be opened unto you, in this world. That is the teaching of all history; it is the singing melody of all nature, and the call of all revelation.

"I am lecturing on the subject "Back to Eden;" and I believe that all the forces and voices of nature and God will help every man or city that starts back to Eden. I am glad to know that old Wilmington is marching homeward and heavenward. God speed her as she goes; keep the "Star" leading the van; and keep "Billy" in the band wagon.

"Twinkle, twinkle little 'Star,'
I never wonder what you are."

"You look the same as you did of yore. You wear the same face, and you have the same gentle twinkle as when Kingsbury pushed the editorial button. I love to see you shine; I love your old, unwrinkled and ever smiling face—like the never dying beauty of the morning star of the ages. May your good influence live forever; and may your hopeful twinkle light your people back to Eden!"

New Zealand Law.

"Adjacent" is the latest word to enjoy the honor of judicial interpretation. A bridge was constructed in New Zealand under an act that enabled the council of the district in which the bridge was built to call upon the council of any adjacent district to contribute to the cost. The supreme court of New Zealand decided that a district more than six miles from the bridge was "adjacent" within the meaning of the act, and the judicial committee of the privy council has declined, after some argument, to disturb this decision. Sir Arthur Wilson, who delivered the judgment of the judicial committee, truly observed that "adjacent" is not a word to which a precise and unifrom meaning is attached. A reference to Mr. Stroud's Judicial Dictionary will show that the house of lords once decided that "even in the wide region of South Africa" two mines, four miles apart, were not "adjacent."

The Bismarck Bluntness.

Prince Herbert Bismarck, whose death deprives the family dynasty of its only grownup representative, took after his famous father in bluntness of speech. When the great chancellor was dismissed Count Herbert followed his father into retirement and was at once struck from the list of the emperor's friends. At the death of the elder Bismarck the son journeyed to Berlin to return to his majesty the orders of the first chancellor, and the emperor is said to have observed in the most friendly way, "Ah, Herbert, how long it is since I have had the pleasure of seeing you." "Whose fault is that?" was Prince Herbert's grim reply to this greeting.

A DANGEROUS MISTAKE.

Wilmington Mothers Should Not Neglect Kidney Weakness in Children.

Most children have weak kidneys. The earliest warning is bed-wetting. Later comes backache, headache, languor.

'Tis a mistake to neglect these troubles,

To blame the child for its own distress.

Seek to cure the kidneys—

Save the child from deadly kidney ills.

Doan's Kidney Pills cure sick kidneys.

Wilmington parents recommend them.

J. T. Ebert, formerly of 515 South Sixth street, mattress maker, says: "I used Doan's Kidney Pills in my family. My little girl complained of severe pains in the small of her back, and the kidney secretions were dark and full of brickdust sediment. We were very much worried about her and when I learned of Doan's Kidney Pills, I went to R. R. Bellamy's drug store and got a box and gave them to her. Since using them she has improved wonderfully and is a different child. Her kidney secretions cleared up, she does not complain of her back, and in fact Doan's Kidney Pills gave her new life. We are very much pleased with them and you can use my name and welcome."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide .

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

TAGGART DIVORCE REACHES THE CLIMAX

Statement That Couple May Become Reconciled—Defense Claims Taggart Led Her to Drink.

By Wire to The Morning Star.

Wooster, O., Aug. 12.—The climax of the Taggart divorce came today when Captain Taggart declared on his direct examination that he had always been a faithful husband. This was near the close of his testimony and was in answer to a question by his attorney.

While on the stand the captain reiterated his story of the events leading up to the separation of himself and wife. He told of the farewell with his wife, after they had decided to separate, and when he was going to the Philippines, when she affectionately called him "Tag" and kissed him good-bye.

In the cross examination which was interrupted by the adjournment to noon time Monday, Attorney Smyer for Mrs. Taggart sought to convey the impression that Taggart alone was responsible for the over-indulgence of his wife in intoxicating liquors and that line of questioning will probably be pursued on Monday.

"We drank about everything that came our way," said Taggart, describing a third year leave he had spent with other cadets in New York. In reply to a question as to how much he had drank at Fort Douglas, Taggart replied: "I dare say about the same as you would have drank." The court room crowd burst into a roar of laughter at this.

At Camp Highwood and Fort Sheridan near Chicago, Taggart had met and married "This Little Woman" as Smyer invariably calls Mrs. Taggart. He supposed that she had been reared to abstain from liquors, but could not know of a certainty. Neither could he say she never offered him liquor. During the courtship he thought "this little woman" had been infatuated with him. He denied that he "induced" her to drink beer when she first joined him at Plattsburg barracks.

There was talk in Wooster of a possible reconciliation of the estranged husband and wife as a result of some of the developments of the trial and it is pointed out that the captain in his testimony has been as considerate of Mrs. Taggart's feelings as he possibly could be under the circumstances.

FRANCE AND ENGLAND FRIENDS

Visit of French Fleet to English Waters Honored by Britishers.

By Cable to The Morning Star.

London, August 12.—The series of festivities in London, Portsmouth and Cowes in honor of the visit of the French fleet was wound up this afternoon by a luncheon in the House of Commons given by members of both houses to Vice Admiral Caillard. The toasts proposed and honored bore testimony to the warmth of the entente cordiale, which had received such a fitting illustration by the interchange of visits of the fleets at Brest and Portsmouth. Premier Balfour, many members of the cabinet and most of the leaders of the political parties were among the hosts, and their guests were conducted to the banquetting hall to the strains of the "Marseillaise," never before heard within its walls.

After toasts to King Edward and President Loubet had been honored, Mr. Balfour proposed "The French Navy" and in an important speech said he regarded today's gathering as a harbinger of peace—of peace in the East, peace in the West and peace all the world over, and he was confident that no greater security for the greatest good of all could be found than in the warm and perpetual friendship of these two great nations of western Europe, who had in the past found themselves too often divided, but who in the future would be able to feel that their world interests were identical and that they had no rivalries over which to fight, but that they had great deeds to perform, for the attainment of which meetings like the present afforded the greatest security.

Vice Admiral Caillard responding, spoke of the ineffacable recollections of the visit of the fleet to England and of how greatly he and his fellow officers appreciated the remarks of the premier.

ACCIDENT AT MOTOR RACE.

Automobile Went Through Fence With Earl Kiser.

By Cable to The Morning Star.

Cleveland, August 12.—Earl Kiser, of Daytona, who first acquired national fame as a bicycle racer and recently as an automobile racer, met with an accident today at the opening of the Cleveland Automobile Club's Summer meet that may prove fatal. In warming up prior to the opening of the races when no one was anywhere near him on the track, his machine was suddenly noticed to turn in toward the fence and crash through. Another racer just behind hurried to the grandstand and summoned physicians who found that Kiser's left leg was reduced to pulp while his right shoulder was dislocated and he was otherwise cut and bruised. Am ambulance removed him to the Glenville hospital where his leg was amputated. As he has not been in the best of health lately, it is feared that blood poisoning may set in. With Kiser out, Webb Jay had things all his own way in the free for all class, defeating Charles Burgman, of Cleveland, and Herbert Lyttle, of Toledo, in the Diamond Cup race. Jay also won the first heat of the Cleveland derby while Burgman won the second heat. The finals will be raced Monday and Jay is a sure winner, unless he meets with an accident.

GOV. GLENN'S BROTHER.

He Is Improving—Chief Executive to Stay at Home a While.

(Special Star Telegram.)

Raleigh, N. C., August 12.—Gov. Glenn returned to-night from Buffalo Lithia Springs and reports that he left his brother and private secretary, Gen. James D. Glenn, able to be up and about the hotel. He says that his general health is steadily improving. The Governor will remain in the city all next week clearing up accumulated work in the executive office.

RIFT IN CLOUD AT PORTSMOUTH

Prospects Brighter for Peace Negotiations Between Russian and Japanese Envoys

DANGEROUSLY NEAR RUPTURE

Japanese Responsible for Better Feeling, Although Outlook is Still Gloomy—Conference Meets Again To-Day.

By Wire to The Morning Star.

Portsmouth, N. H., August 12.—There is a rift in the clouds. The prospects of a successful issue of the "Washington Conference" have brightened somewhat as a result of today's developments. The discussion of the terms submitted by Japan has actually begun, but this has been accomplished by postponing the consideration of the two main issues, indemnity and the cession of Sakhalin. So far as ascertainable the Japanese were responsible for the tactics by which this hopeful stage was entered upon. As the mantle of secrecy has been thrown around the proceedings by mutual pledges not to divulge what happened within the council chamber there are missing links in the chain of evidence and it is impossible to judge whether this signifies a back down on either side on the main points. On the face of things both sides are still as uncompromising as ever upon the two issues, the struggle over them being merely postponed. Some sort of private understanding arrived at by Baron Komura and Mr. Witte during the recess at the navyyard today is pointed at, but there is not the slightest confirmation obtainable. No evidence of a change of the uncompromising attitude on the part of Mr. Witte or Baron Rosen regarding the main points is observable. Nevertheless the Japanese who are attached to the Nippon mission plainly manifest elation and some of them privately assert that Mr. Witte would never have consented to the discussion of the terms had he not been prepared to yield on the question of Sakhalin.

Russia's Reply Presented.

The Russian reply with its nonpossumus as to indemnity and Sakhalin had been presented in the morning. Yet, in spite of this fact, at 3 o'clock the plenipotentiaries, after agreeing to discuss the conditions seriatim, entered upon the consideration of the first of the Japanese terms. The proposition to discuss the conditions in this way is believed to have emanated from the Japanese side. The first condition was of secondary importance—one of those which Russia had passed upon as conditionally acceptable as a basis of discussion—yet little progress was made. Four hours were spent in debating it but no conclusion was reached. As there are twelve conditions and this one is of minor importance, the outlook is still gloomy. The plenipotentiaries at 7 o'clock adjourned until to-morrow afternoon at 3 o'clock The Japanese wanted to hold a session in the morning but Mr. Witte would not agree to this, as it was Sunday.

Both of today's sessions are described as "friendly" but no details are divulged. Mr. Witte, makes no concealment of the fact that the rigid secrecy which the Japanese insisted upon imposing upon the proceedings is distasteful to him. With much earnestness he spoke tonight to the Associated Press correspondent upon thes ubject. At the time he was laboring under considerable excitement because of the published assertion which had been called to his attention that he had pleaded for an armistice. For the dignity of Russia that the pride of his country he asked that an absolute denial should be given to the report.

The Russian reply to the Japanese terms delivered by Mr. Witte to Baron Komura was outlined in The Associated Press dispatches last night. Upon the two points—indemnity and cession of Sakhalin—it declines to admit discussion. Others it accepts and still others it accepts conditionally. It is long, taking up the conditions seriatim and setting forth the reasons and argument for the decision reached in each case. The argument against the payment of an indemnity or the cession of territory is based upon the general theory that Russia is not responsible for the war and that Russia is still prepared to continue the struggle and has sought this meeting not as a vanquished country begging for terms, but because she sincerely desired peace if honorable peace is possible. Therefore she could either agree to foot Japan's bill for war expenses nor cede territory. The argument can be fairly stated as follows:

"Russia is not vanquished. She has suffered reverses but she is not obliged to accept peace at any cost. She desires peace now as she always has, even before Japan opened hostilities. That Russia did not court or want war was evident by the fact that she was not prepared for it, either in a military, naval or administrative sense. Russia could possibly be properly accused of only one thing—of having given the occasion which Japan was seeking and for which Japan had been preparing for ten years to make war upon her. She responsibility for the war, therefore, falls upon Japan and not upon Russia.

It can be said, however, that although firm on the main points, Mr. Witte's reply is exceedingly courteous in form and tone and leaves the way open to discussion and negotiation if the Japanese are willing.

Many of the observers at the Wentworth to-night recalled the fact that all the statements emanating from Japanese sources before the conference, declared that Japan before consenting to take up the detailed discussion of the conditions would insist upon a general agreement from the basis. It was asserted with great positiveness that Japan would never consent to discuss the terms seriatim until such an agreement had been reached. From this many argue that Japan is prepared to yield.

Others believe, on the contrary that a private assurance has been given Baron Komura outside the conference chamber that Russia would discuss all the basis proposed.

Mr. Witte has arranged to attend religious services to-morrow morning. This evening he remarked laughingly:

"I'm not a Japanese." He added: "I did not want a session of the conference to-morrow morning. I am a good Christian and desire to attend service on the Sabbath. As there is no Orthodox church here, I shall go to the Portestant church."

It is believed that the condition discussed at to-day's meeting was the question of the evacuation of Manchuria and the transfer of the Russian leases to Japan.

Baron Komura and Mr. Takahira dined to-night at Assistant Secretary Pierce's, and did not return to the hotel until 11 o'clock. Mr. Witte, after dinner saw a number of people, and at 10 o'clock told the men stationed at the door that as he had several hours work before hmfi, no further cards should be brought in. He sent for Mr. Shipoff and Mr. Pokotiloff, and the lights were still burning at midnight.

Poor Hotel Accommodations.

Portsmouth, N. H., August 12.—Conditions here so far as the arrangements for the comfort of the plenipotentiaries go are far from satisfactory and in any accurate reflection of events here it is impossible not to take notice of the complaints heard on all sides. The fact that foreigners do not live as Americans do, has not been taken into account by the hotel management and little effort has been made to provide for their personal comfort. For instance, the Russians who are in the habit of drinking tea at odd times cannot obtain their customary beverages except during regular hours.

A group of foreigners were sitting on the veranda last night indulging in cooling drinks when one of the hotel employes appeared and without the slightest warning turned out all the lights. An immediate protest was made but the only reply was, "Lights must be put out at 12:30." It was one minute past that hour. Indignant at this treatment, one of the party after some difficulty found the key and turned on the lights. One of the envoys, after working in his rooms until midnight, wishes something to eat, it is impossible to get it. The Russian mission was forced to leave the dining room because Mr. Witte could not smoke while drinking his coffee. They are now crowded into a small room on the second floor where there are two tables arranged close together. The Japanese preferred to forfeit the luxury of a cigarette with their coffee rather than swelter in a warm room.

Looking for Rupture.

St. Petersburg, Aug. 12.—Dispatches from Portsmouth make it clear that unless there is a very substantial abatement of the demands of the Japanese plenipotentiaries, which is unlikely, the peace conference will come to a sudden conclusion. The two nations are so wide apart that all hope of agreement has been practically abandoned here. It is probable that the next session will end in a final adjournment and that Mr. Witte may sail for Europe very shortly.

Official Statement.

The official statement regarding this morning's session was given out by Mr. Sato at 11:15 accompanying it with the explanation that it was an official statement to which both sides agreed. It is as follows:

"In the sitting of Saturday, August 12th, their excellencies, the penipotentiaries of Russia, have handed their reply in writing to the note presented to them on Thursday by the plenipotentiaries of Japan. It has been decided that the next meeting will take place after the Japanese plenipotentiaries have examined and studied the reply received, which will be at 3 o'clock this afternoon or tomorrow at the same hour."

Oyama Ready For Attack.

So pessimistic was the feeling among those in the confidence of both sides early today that the prediction was made to the Associated Press correspondent that, if a meeting should be held this afternoon, it might be the last and that the history of the Washington Conference would be abruptly concluded today. If the negotiations are broken off, Oyama will immediately give battle to Linevitch. The Associated Press learns from an unimpeachable source that Oyama's plans are perfected, his armies are ready and only await the signal that a rupture has occurred to launch an attack.

PLUCKY RICHMOND LADY.

Fired and Hit Burglar Who Shot at Her.

By wire to The Morning Star

Richmond, Va., Aug. 12.—A burglar entered the home of H. C. Stuart, member of the State Corporation Commission at Elk Garden last night and was in the act of carrying off diamonds and other jewelry when Mrs. Stuart fired on him three times, hitting him the third time, though he made his escape leaving the jewels behind him. He fired once at Mrs. Stuart but missed her. Bloodhounds have been put on his trail. Mr. Stuart was in Richmond attending a session of the commission.

At Washington yesterday the case of the railroad commissioners of North Carolina vs. the Southern Railway Company, involving the question as to whether railroad companies in North Carolina can be compelled to run their cars on the side tracks of private concerns regardless of their own regulations, was docketed in the Supreme Court of the United States.

FEVER SCOURGE BREAKS RECORD

New Orleans Being Swept By Yellow Fever But People Are Hopeful.

NEW CASES YESTERDAY 105

Nearly 1,000 Cases on Record—Death Roll Foots up 142 Since Pestilence Began—Newspaper Man Dies at His Post.

By Wire to The Morning Star.

New Orleans, August 12.—The following is the official report of the yellow fever situation up to 6 P. M. to-day:

New cases, 105; total cases to date, 913.

Deaths, 9; total deaths to date, 142.

New sub-foci, 15; total sub-foci, 188.

Cases under treatment, 348.

The figures today speak for themselves. It was a record day all around. The only feature of the report that can be taken as encouraging is that very few of the cases are above Canal street. Dr. Perkins, chief of the corps of medical inspectors, reported forty-three of the new cases. These cases are among a large batch which had been reported as suspicious and which he investigated today. Only nine of the new foci are above Canal street.

Assistant Surgeon Berry who was stricken with the fever night before last is reported as doing well.

News from outside of the city contained nothing startling. There was a secondary development on Ardoyne plantation in Terrebonne Parish, the son of the overseer being stricken today. An emergency hospital has been provided and the case is isolated. A suspicious case was reported from LaFourche crossing in LaFouche Parish, and Surgeon E. Guiteras has been asked to go there from Patterson to investigate. This case is one of an Italian who harbored a refugee three weeks ago. The refugee was sick but recovered and the Samaritan is now stricken twenty days after. Dr. Tichenor who is at Bon Ami in Calcasieux parish reports that the suspicious case reported yesterday in the detention camp is positive and has been isolated. The situation at Patterson is unchanged. There have been two new cases and no deaths to-day.

Record Breaker In New Orleans.

Record breaking numbers of new yellow fever cases, 105, and of new fever centers, 24, were reported today through the exertions of Marine Hospital inspectors. Today's death list of nine yellow fever victims equal's yesterday's record which surpassed previous records of the present visitation.

The public, however, having reconciled itself to expect a heavy list for several days to come, was undismayed by the report and the health officers saw no occasion to concede a retrogression in the situation.

It is admitted that all the cases embraced in the daily official totals are actually yellow fever. Even at the emergency hospital, to which the worst cases go, numbers of cases have been finally diagnosed as malaria, or typhoid fever. But all suspicious cases are turned in by inspectors and doctors and go at once into the yellow fever list. There is no correction of the total if careful diagnosis shows the suspicious case to be not yellow fever.

Dr. White's appeal to physicians to report suspicious cases today had a marked effect. The number of doctors who visited the Marine Hospital offices to report cases was larger than at any time since the fever appeared. The Marine Hospital Service has made so good an impression that confidence is inspired among uneducated classes, and there is more willingness to report cases to the health officers.

An unscreened cistern is now an exception among small property holders but is not a novelty in some of the more fashionable quarters. Today affidavits were made against a number of men of high standing for failure to screen cisterns.

One of those who died today of yello wfever was Carl A. Schaal, a newspaper reporter. Schaal covered assignments in the infected quarter and lived nearby. His wife was stricken with yellow fever some time ago and he assisted in nursing her back to health before he was stricken. He came from Fort Wayne, Indiana, several years ago and was thirty years old.

Preachers of various churches tomorow will renew appeals for assistance in stamping out yellow fever.

BISHOP A. COKE SMITH ILL.

He Is At Asheville Broken Down From Overwork.

By Wire to The Morning Star

Asheville, N. C., Aug. 12.—Bishop A. Coke Smith, of the Southern Methodist Church, lies dangerously ill here tonight, and his wife, who is now in Norfolk, Va., has been telegraphed for. Bishop Smith came to Asheville about four weeks ago to recuperate from overwork and up to the time of his return to Norfolk, ten days ago, was rapidly improving in health. He came back to Asheville last Monday, complaining of being sick, and has been under the care of a trained nurse since that time.

The Steamer Johnson.

The steamer A. J. Johnson, which has been on the ways here for a week undergoing a thorough overhauling and repairs since she was sunk on July 19th, up Black river, will be off Monday, and will leave Tuesday afternoon at 2 o'clock, resuming her trips to Clear Run. Capt. D. J. Black is in command, and says the boat is now in as good condition as she ever was, and is as bright as a new pin, having been repainted all over.

Charles M. Schwab is preparing to go from New York to Europe for a three months study of continental ship building industry, with a view, on his return to America, of putting into operation a system of shipbuilding plants along the entire Atlantic coast. The plant is to have an identical mechanical equipment so that a vessel built in any one of the yards and in need of repairs to regular types of machinery can put in at the nearest yard and there be refitted as promptly as would be possible at the yard which built the vessel. Mr. Schwab's study will be made in the interests of the Bethlehem Steel Company.

Clarence Thompson Again Arrested.

This morning at 2 o'clock a telephone message to the police station stated that the patrol wagon was wanted at the Angola Lumber mill. Sergeant Hardee went on the wagon for the call and at the mill met Mr. E. F. Seymour, superintendent of the plant, who lives in a cottage on the premises. He had under arrest Clarence H. Thompson, the young white man of good parentage who was recently arrested and found not guilty of vagrancy in the higher court. Mr. Seymour told Sergeant Hardee that he had awakened during the night and found Thompson in his room. What he was doing there or how he got through the locked doors of the cottage, Mr. Seymour did not know. He wanted him arrested for forcible trespass and Thompson was taken to the police station for trial Monday. Mr. Seymour said that at one time Thompson did odd jobs about the mill but lately he had been ordered to stay off the premises as he was a source of considerable annoyance. The young man was under the influence of liquor when locked up at the station house.

A CARD.

There seems to have been considerable comment upon the fact that I interviewed the Mayor of this city regarding the enforcement of an ordinance prohibiting the sale of all commodities of merchandise, excepting drugs and ice, when there was an open disregard of the same by certain merchants of this city, who were allowed to indulge each Sunday in the pastime of retailing their cigars, cigarettes and tobaccos, to the exclusion of cigar dealers, who were threatened with prosecution if they dared open their doors. And now because this law is to be neforced against all alike, without discrimination, I am regarded by some as having committed an unpardonable sin, because these merchants are not allowed to double and thrible their sales from cigars and cigarettes and tobaccos on Sunday to catch up for the balance of the week and enable them to keep up with the regular cigar dealer.

To a fair-minded man my action needs no explanation. If I am to be harassed with the responsibility, then I assume it, but the law is written in language that speaks for itself and the Mayor needs to make no apologies for requiring the chief-of-police to enforce this ordinance, and the chief-of-police need not feel the least bit humiliated in executing the law. If the law is a bad law, repeal it. If a good law, let it remain. If upon the statute books, enforce it against all, with equal rights to all and special privileges to none. This is a sentiment that all fair minded men, I believe, will endorse.
